The primary component of any effective energy planning framework is the regular collection of timely and accurate data. As part of PEZA's continuing efforts towards formulating measures to provide adequate, reliable and reasonably-priced power supply to all the PEZA-registered public and private Special Economic Zones, all PEZA-registered locator enterprises are henceforth required to submit through the EZMPR their monthly power data which can be easily found in their respective monthly power bills.

Effective immediately, the following power data are also to be submitted monthly in the EZMPR.

For locator enterprises with more than one electric billing meter, please submit the total kWh, KW, and power bill amount (in Pesos) registered in all of the electric billing meters.

For locator enterprises (e.g. those supplied by Meralco) whose power billing statements do not show the Power Demand in kilowatts (KW), please indicate "NA" (i.e. Not Available).

For locator enterprises using self-generation facilities utilized for production purposes (excluding generation sets used as back-up source of power), please provide also the information below.

(4) Energy Generated in Kilowatt-hour (kWh)

This refers to the amount of electricity the locator enterprise generated and consumed during the billing period.

(5) Cost of Generation per Kilowatt-hour (Pesos per kWh)

This refers to the cost of fuel in generating power, to be expressed in Pesos per kilowatt-hour (kWh). This excludes acquisition cost of the generation facilities, maintenance and operating expenses, depreciation, etc.

Attached herewith is a copy of the revised EZMPR form which may be downloaded from the PEZA website (www.peza.gov.ph).

This Memorandum Circular supplements PEZA Memorandum Circular No. 2006-026 dated 30 October 2006.
