

Republic of the Philippines
Philippine Economic Zone Authority

MEMORANDUM CIRCULAR No. **2022-057**

FOR : All PEZA Registered Economic Zone Developers / Operators
All PEZA Zone Administrators / Zone Managers / Officers in-Charge

FROM : TERESO O. PANGA 
Officer in-Charge and Deputy Director General for Policy & Planning

SUBJECT : Survey on Wastewater Management of the Economic Zones

DATE : 16 August 2022

The Clean Water Act and its implementing rules and regulations requires economic zones to establish wastewater treatment facilities to ensure the proper treatment of effluent prior to discharge to the nearest body of water. The need to properly manage the wastewater generated in the operation of the economic zone is also prescribed in the Registration Agreement between PEZA and the economic zone.

PEZA is aware that there are economic zones who may have issues in complying with the Revised General Effluent Standards (GES), to address this, PEZA has been submitting position papers and participating in discussions with regulatory agencies.

To better understand the current status of wastewater management / wastewater treatment plant (WTP) in the economic zones, we request the ecozone administrators or their pollution control officers (PCOs) to accomplish the following online form:

bit.ly/WTPecozone

If there are concerns that require our attention, please send us an email at ensd@peza.gov.ph or call us at 8551 – 6561.

We would appreciate receiving the accomplished online form **not later than 31 August 2022** so that your responses will be considered in on-going discussions with regulatory agencies.

For compliance.

PEZA - DTS
