PEZA BIDS AND AWARDS COMMITTEE
SUPPLEMENTAL BID BULLETIN No. 2023-07

PROJECT: Procurement of Integrated Financial Management System (IFMS) (PEZA-HO-2023-06)

This Supplemental Bid Bulletin No. 2023-07 is being issued to address queries/clarifications in the Bidding Documents sent thru email and raised by bidders during the pre-bid conference conducted on 17 August 2023.

TECHNICAL SPECIFICATION/ INFORMATION	AMENDMENT/CLARIFICATION
<p>A.III. BASIC FEATURES</p> <p>III. 11. Sales Data Transmission System (SDTS) (Page: 22)</p> <p>h. To be eligible to bid, the provider should submit at least one (1) Permit to Transmit with attachments and EIS CERT Approval obtained for previous clients not earlier than 2020.</p>	<p>A.III. BASIC FEATURES</p> <p>III. 11. Sales Data Transmission System (SDTS) (Page: 22)</p> <p><i>h. To be eligible to bid, the provider should submit at least one (1) EIS certification OR proof of ongoing or completed SDTS systems development contract from any government or private entity not earlier than 2020</i></p>
Queries/Suggestions from Simplevia	
<p>1. Is it possible to separate this requirement into another module or phase while the IFMS is undergoing development or is already in place?</p>	<p><i>It was established by the end-users in the pre-procurement meeting that the project delivery schedule stated in the Bid Docs will be strictly implemented to avoid possible penalties by BIR.</i></p>
<p>2. Prospective bidders will need to provide an agreement indicating their commitment to meet the EIS requirements before the BIR SDTS becomes readily available</p>	<p><i>Regarding the submission of EIS Certification, the requirement will be relaxed to instead accept at least one (1) EIS certification OR proof of ongoing or completed SDTS systems development contract from any government or private entity not earlier than 2020. This is to ensure that the bidder is familiar with BIR's approval and certification process in order to avoid penalties that may result in delays in development.</i></p>
<p>3. If prospective bidders do not meet this requirement, is it possible to consider prospective bidders with the following capabilities:</p> <p>a. Have experience with similar projects and functionalities.</p>	<p><i>PEZA believes that the bidder's capability to provide the project's complex requirements can already be proven by other documents such as SLCC and other various certifications.</i></p>

<p>c. Have a proven track record of handling projects of similar or larger scale</p>	<p><i>completed SDTS systems development contract from any government or private entity not earlier than 2020. This is to ensure that the bidder is familiar with BIR's approval and certification process in order to avoid penalties that may result in delays in development.</i></p>
<p>Query from Annex Digital Inc (ADI)</p>	
<p>4. Request for re-consideration to relax this requirement from: "To be eligible to bid, the provider should submit at least 1 permit to Transmit with attachment and EIS CERT approval obtained for previous clients not earlier than 2020" to: A certificate of declaration and commitment to ensure the offered FMIS platform's full compliance to the process of EIS certification required by BIR?</p>	<p><i>Please see response no. 3</i></p>

ALL REQUIREMENTS/SPECIFICATIONS PROVIDED IN THE BIDDING DOCUMENTS, NOT OTHERWISE REVISED OR AMENDED BY THE ABOVE, IF ANY, SHALL REMAIN IN FORCE AND IN EFFECT.

For information of all concerned.

Issued this 7th day of September 2023, Pasay City.
